Udtræk af data

- ▶ De kliniske kvalitetsdata i DBCG's database omfatter de data, som siden 2006 indgår i kvalitetsindikatorerne i DBCG's Kvalitetsindikatorrapport for Brystkræft. Alle andre data i databasen er forskningsdata.
- ▶ Langt hovedparten af anmodninger til DBCG om udtræk af data vedrører såvel kliniske kvalitetsdata som forskningsdata.
- ▶ Ved ansøgning om udlevering af data (kliniske kvalitetsdata og/eller forskningsdata) fra DBCG udfyldes ansøgningsskemaet udarbejdet af RKKP. Skemaet med evt. bilag sendes til RKKP, som konstaterer om de lovmæssige betingelser for dataudlevering er opfyldt og herefter videresender materialet til DBCG.
