Questionnaire

Name:
Patient ID number
Date:

Guide:

How to fill in the questionnaire:

- 1) Use a pen
- Please, read every question and all the categories of answer to that question before you answer. Pay attention that sometimes you may tick off more than one box. If more than one tick off is allowed, it will be listed as follows: "(Please tick off more than one box if relevant)". Tick off the statement most in harmony with your opinion. If you make a mistake or change your mind, fill out the whole wrong box and tick off the new box.
- 3) Some questions are easier than others to answer. If you are in doubt, tick off the box most appropriate for you. If there are questions you are not able to or do not want to answer, then please continue to the next question.
- 4) Please, fill in the questionnaire according to how *you have been feeling about yourself during the past week*.

In this questionnaire we understand pain as just something hurting. We do not distinguish between pain and something hurting.

The questionnaire is divided into the following groups of questions:

- General
- Questions regarding pain
- Questions regarding sensory disturbances or discomfort
- Questions regarding swelling and heaviness (lymph edema)
- Questions regarding restriction of function
